Internship Available for Summer 2020: Water Quality Fieldwork

Where: Musconetcong Watershed Association, Asbury, NJ (Warren County)
When: Mid-May-September 15
Compensation: Compensation ($12-15/hr.) 4 days/week

Organization mission
The Musconetcong Watershed Association (MWA) is an independent, non-profit organization dedicated to protecting and improving the quality of the Musconetcong River and its Watershed, including its natural and cultural resources.

Internship position description
Will work with MWA Water Quality staff to collect scientific data:

- Collect weekly water samples from the river
- Use meters and specialized equipment to make measurements on river
- Maintain continuous sensors
- Organize and record data for reports

Requirements
- Must be comfortable working independently or as part of a team
- Must be comfortable being outside for long periods of time in various weather conditions
- Career path in the environmental sciences, field biology or related field
- Must have personal vehicle

Interns will receive extensive mentoring and networking opportunities

Applying for internship
Email a brief description of your career direction, background, experience, and coursework to Nancy Lawler, MWA’s Water Quality Coordinator at nancy@musconetcong.org no later than March 21.

Internship is supported by funding from the William Penn Foundation and US Fish and Wildlife Service
